

ALEX MORGAN

Senior Backend Engineer

Gotham City | alex.morgan@example.com | (555) 010-2938

SUMMARY

Backend engineer with 8 years of experience designing and operating high-throughput distributed systems. Deep expertise in Node.js services, relational data modeling, and cloud infrastructure automation.

EXPERIENCE

Senior Software Engineer, Gotham Financial Systems (2019 - Present, 6 yrs)

- Built and maintained Node.js microservices handling 40M+ requests/day
- Owned PostgreSQL schema design and query performance for the core ledger service
- Migrated legacy batch jobs to containerized Docker workloads on AWS ECS
- Designed the team's CI/CD pipeline and infrastructure-as-code (Terraform)

Software Engineer, Blackgate Data Co. (2016 - 2019, 3 yrs)

- Developed REST APIs in Node.js and Express backed by PostgreSQL
- Deployed and monitored services on AWS (EC2, RDS, S3, CloudWatch)
- Introduced Docker-based local dev environments across the engineering team

SKILLS

Node.js, PostgreSQL, AWS, Docker, TypeScript, Kubernetes, Redis, REST APIs, CI/CD, System Design, Terraform

EDUCATION

B.S. Computer Science, Gotham State University, 2016
